April Food Service Health Scores Released

Granbury, Texas – The City of Granbury released the April 2021 Food Service Establishment Health Scores for nearly 20 sites, including the Hood County Youth Services and others. The City’s Public Health Inspector examines all food establishments within city limits, including full-service restaurants, fast food establishments, gas stations, daycares and schools.

Inspections are conducted 2-4 times annually, with scores ranging from 0 to 100 demerits. A score of 100 indicates a perfect score, while 70 indicates serious conditions that need to be corrected. It is important to remember that scores represent only a snapshot of the facility when the inspector arrived. The conditions could be better or worse while an inspector is not present.
