### **2.1.E VARIANCES**

In order to grant a variance from these zoning regulations, the Board of Adjustment must make written findings that the variance creates undue hardship, using the following criteria:

- A. That literal enforcement of the controls will create an unnecessary hardship or practical difficulty in the development of the affected property;
- B. That the situation causing the hardship or difficulty is neither self-imposed nor generally affecting all or most properties in the same zoning district;
- C. That the relief sought will not injure the permitted use of adjacent conforming property; and
- D. That the granting of a variance will be in harmony with the spirit and purpose of these regulations.

A variance shall not be granted to relieve a self-created or personal hardship, nor shall it be based solely on economic gain or loss, nor shall it permit any person a privilege in developing a parcel of land not permitted by this Ordinance to other parcels of land in the particular zoning district. No variance may be granted which results in undue hardship on another parcel of land.

**The applicant bears the burden of proof in establishing the facts justifying a variance.**

### **2.1.F SPECIAL EXCEPTIONS**

- The Zoning Board of Adjustment shall have the authority to hear and allow special exceptions only for nonconforming buildings and only when the use is conforming.
- In granting a special exception, the Zoning Board of Adjustment shall not authorize uses that are not allowed under the terms of this ordinance for the respective district.
- A proof of hardship is not required for granting a special exception.

**If a decision of denial has been rendered by the Board of Adjustments, there shall be a six (6) month holding period before any new application may be filed for consideration by the Board of Adjustments for the same request.**

**2.1.E VARIANCES - Fill out form completely and return for a variance request, if applicable.**

**In order to grant a variance from these zoning regulations, the applicant must propose that:**

Special conditions and circumstances exist which are peculiar to the land, structure, or building involved and which are not applicable to other land, structures, or buildings in the same district.

That literal interpretation of the provisions of the Zoning Ordinance would deprive the applicant of rights commonly enjoyed by other properties in the same district under the terms of the Zoning Ordinance.

That the special conditions and circumstances did not result from the actions of the applicant.

That granting the Variance/Special Exception requested will not confer on the applicant any special privilege that is denied by the Zoning Ordinance to other lands, structures, or buildings in the same district.

**Applicant please note, that hardships cannot be self-imposed or based on financial gain.**

**2.1.F SPECIAL EXCEPTIONS – Fill out form completely and return for a special exception request, if applicable.**

**A proof of hardship is not required for granting a special exception. The applicant bears the burden of proof to support the Special Exception request.**

Describe how the permitted special exception (if granted) would impact upon neighboring properties or would be contrary to the public interest.

Describe any beneficial effects of the permitted special exception (if granted) to neighboring property, the city, or the public in general.

Explain how the permitted special exception (if granted) is consistent with the purpose and intent of the current Zoning Ordinance regulations.

Any additional comments you would like to add regarding the requested special exception.
