**Re: City of Granbury  
Notification of Affected Landowner Meeting  
Public Notice for Water Quality Permit (WQ 0015821001)**

Dear Mr. & Mrs. Allen:

The City of Granbury has submitted an application to the Texas Commission on Environmental Quality (TCEQ) to obtain a water quality permit associated with a proposed Wastewater Treatment Plant (WWTP). The proposed WWTP will utilize advanced treatment technology to produce higher quality effluent than a conventional WWTP.

You are receiving this meeting notification because your property is located within the required affected landowner notification area for the water quality permit application as determined by the TCEQ; your property is either abutting the proposed WWTP (which will be located at 3121 Old Granbury Road) or is located within one mile downstream of the proposed effluent discharge route (along an unnamed tributary of Rucker Creek and Rucker Creek). The TCEQ will soon be mailing you a Notice of Receipt of Application and Intent to Obtain Water Quality Permit (NORI) notice. The NORI will indicate that the permit application will be available for viewing at City Hall during the 30-day comment period.

In an effort to provide additional information and to communicate the benefit of this project, the City of Granbury is holding an Affected Landowner Meeting on Thursday, November 14, at 6:00 PM at the council chambers of Granbury City Hall, located at 116 West Bridge Street, Granbury, Texas 76048. City representatives will provide a presentation describing the project and be available for a question and answer session. The permit application will also be available for review and discussion.

We look forward to your attendance at this Affected Landowner Meeting to discuss the importance of this project. If you have any questions prior to the meeting, please contact the Public Works Department at (817) 573-7030.

Sincerely,

Rick Crowover  
Director of Public Works
